

We make sure good dogs sleep great!

Sleepover FAQ

After a full-day playing with other daycare furry friends we make sure all dogs and cats are safely put into their kennels at bedtime. They always have access to water; plus they're in a spacious, well ventilated suite so they can sleep comfortably. Our staff finishes their shift around 7pm. They return the next morning at 6:30am.

In the case of an emergency, there is both a sprinkler system and an alarm system which will immediately notify our staff remotely. A few staff members live in walking distance of The Good Dog Spot; someone will always be able to get here very quickly in the event of an emergency.

For many years The Good Dog Spot has earned the reputation of being the most trusted home-away-from-home for pets in the Pioneer Valley. Pet parents looking to go out of town, or just need their pet out of the house for a holiday party or spring cleaning can rest assured that their pets are comfortable and safe while they stay with us.
